

## **DIF Application**

This online version of the application is intended to assist you in learning more about the DIF Committee's proposal.

Please note that the full DIF application includes multiple consultant reports and other documents. The Committee has not been able to post online all information in the application because of the volume of scanning that would be required. The Committee has filed three full copies of the application for public review, one in the Morse Institute Library, one in the Office of the Town Clerk and one in the Office of the Selectmen. The public is encouraged to review these documents, and is welcomed to call Stephen Lisauskas, Deputy Town Administrator, at 508-647-6404 with any questions or requests for information. You may also e-mail him at [slisauskas@natickma.org](mailto:slisauskas@natickma.org).

## **Application**

### **Appendix Map**
